

Listen on Computer Directly from USB (iTunes | Windows Media Player | Quicktime)

In this tutorial we are using Windows 7.
For Mac instructions, see page 3.

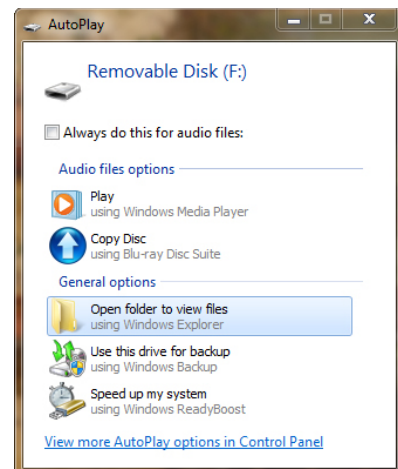

To Open:

The USB port is hinged on the right-hand edge of the card. Just snap it open.

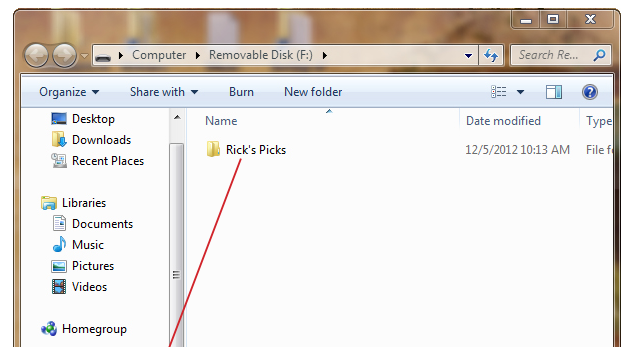

1. Insert the USB device into your computer.
You'll be asked what to do with the new device.

Choose: "Open folder to view files using
Windows Explorer"

2. For the purposes of this tutorial, we have plugged in "Rick's Picks" Flash Drive.

Double-click on the folder
"Rick's Picks" to reveal the audio
messages available on the flash drive.

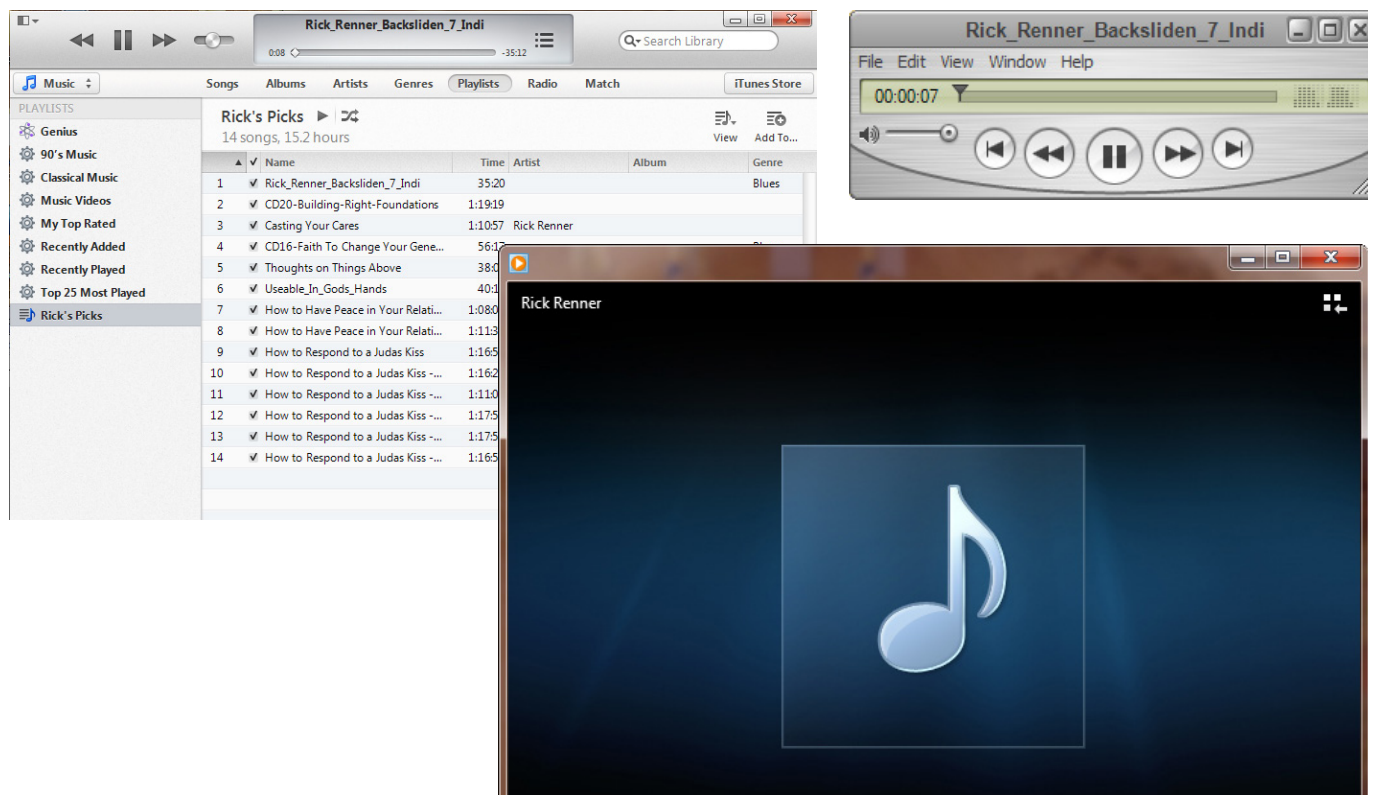

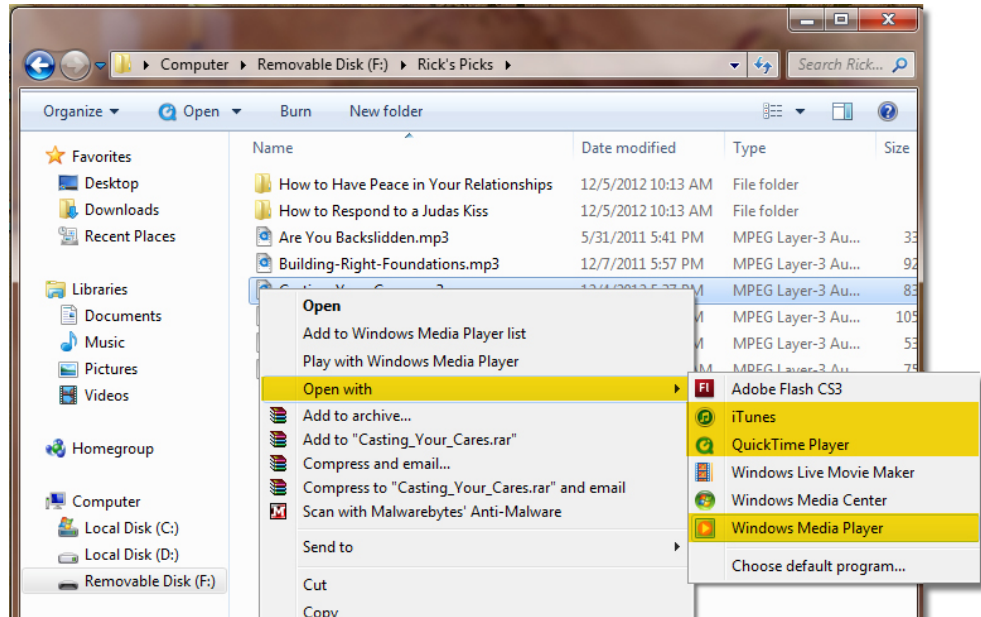

3. Select the audio you would like to listen to.

Right-click. Choose “Open with”

Select:

- iTunes
- QuickTimePlayer, or
- Windows Media Player

If you do not have the free iTunes music player, visit www.apple.com/itunes.

If you do not have Windows Media player installed, visit <http://windows.microsoft.com/en-US/windows/download-windows-media-player>.

If you do not have Quicktime player installed, visit www.apple.com/quicktime/download.

Listen on Computer Directly from USB (iTunes | Quicktime)

In this tutorial we are using Mac OS 10.7.5

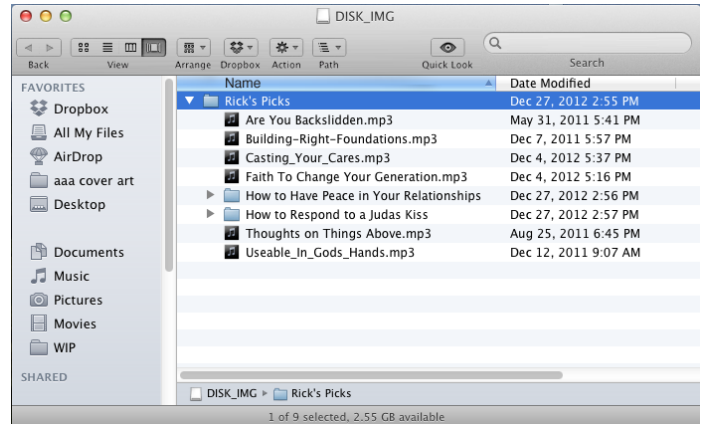

1. Insert the USB device into your computer.

Double click on the folder that appears
(in this case labeled "DISK_IMG")

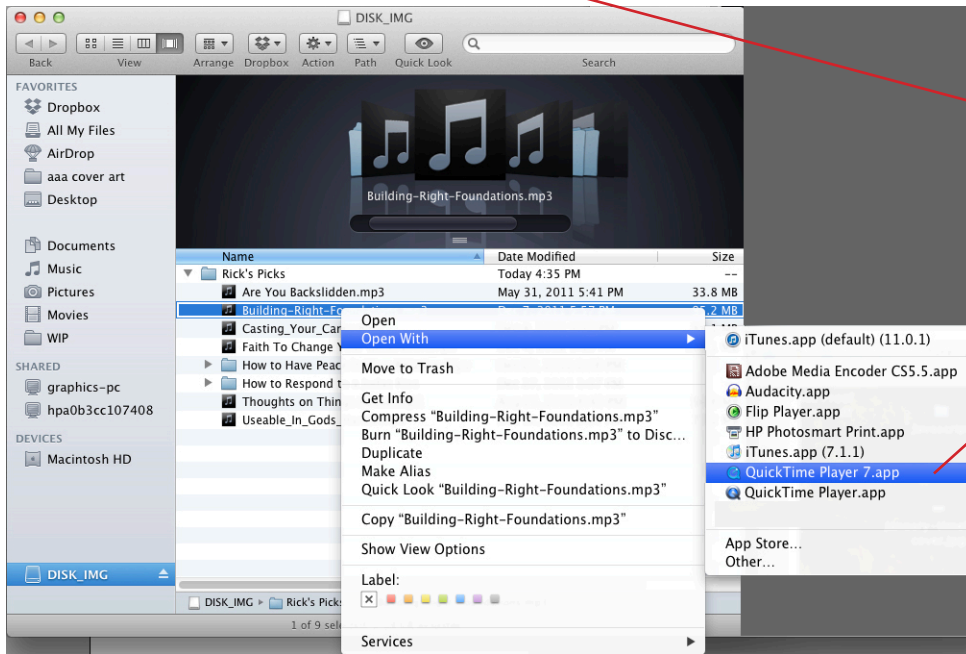

2. For the purposes of this tutorial, we have plugged in "Rick's Picks" Flash Drive.

Double-click on the folder
"Rick's Picks" to reveal the audio

3. To play using QuickTime Player:
Select audio you wish to play.
Right click. Choose "Open with"
QuickTime Player.

To play using iTunes:
Select audio you wish to play.
Right click. Choose "Open with"
iTunes.
